

RAVENOL Petrol System Cleaner

Kategorie: Additives

Artikelnummer: 1390202

Application: Passenger car, Motorcycle, Marine

0.3L | 1390202-300

RAVENOL Petrol System Cleaner is a fuel additive for cleaning all petrol injection engines and therefore, for cleaning the fuel system from the tank to the combustion chamber.

RAVENOL Petrol System Cleaner removes resinous and varnish-type deposits on a microscale on fuel injection valves and fuel volume distributors and therefore, ensures precision control of fuel injection valves.

RAVENOL Petrol System Cleaner binds and neutralizes acidic condensation in the tank and fuel system into a flammable emulsion.

RAVENOL Petrol System Cleaner protects the fuel system against corrosion.

Application Note

RAVENOL Benzin System Cleaner is added to the benzin. Area of application:

Benzin-operated engines

Can be used preventively at every service

In the event of increased fuel consumption

For all benzin injection engines with or without catalytic converter

Application:

Pour the contents of the container into the tank. The ideal dosage is a can of **RAVENOL Benzin System Cleaner** per 50 litres of benzin.

The cleaning performance of **RAVENOL Petrol System Cleaner** is verified by a comprehensive engine test. **RAVENOL Petrol System Cleaner** protects the fuel system against corrosion, verified with corrosion protection test according to Kesternich DIN 50 017.

Characteristics

- Guaranteed functionality of catalytic converter and lambda probe
- Saving of fuel by means of precise fuel injection and nebulisation
- Cleaning of the fuel system from the tank to the combustion chamber
- Binding of water in the tank and fuel system
